Raising Healthy Children

A Social Development Approach to Prevention

Blueprints Conference| March 18, 2008

S

D

R

G

Session Objectives

- Understand the research foundation of Raising Healthy Children.
- Identify the key components of the Raising Healthy Children program.
- Identify the long term outcomes from the Seattle Social Development Project's test of Raising Healthy Children.
- Understand what it takes to implement Raising Healthy Children.

S

D

R

G

Research Advances in Prediction

- Longitudinal studies have identified the predictors of positive outcomes like success in school...
- As well as the predictors of substance abuse, violence, and other problem behaviors that interfere with student learning.

S R	D G	Risk Factors for Adolescent Problem Behaviors					
		Risk Factors					
		Family					
		Family History of the Problem Behavior	+	+	+	+	+
		Family Management Problems	+	+	+	+	+
		Family Conflict	+	+	+	+	+
		Favorable Parental Attitudes and Involvement in the Problem Behavior	+	+			
		Substance Abuse					
		Delinquency					
		Teen Pregnancy					
		School Drop-Out					
		Violence					
		Depression & Anxiety					

S R	D G	Risk Factors for Adolescent Problem Behaviors					
		Risk Factors					
		School					
		Academic Failure Beginning in Late Elementary School	+	+	+	+	+
		Lack of Commitment to School	+	+	+	+	+
		Substance Abuse					
		Delinquency					
		Teen Pregnancy					
		School Drop-Out					
		Violence					
		Depression & Anxiety					

S R	D G	Risk Factors for Adolescent Problem Behaviors					
		Risk Factors					
		Individual/Peer					
		Early and Persistent Antisocial Behavior	+	+	+	+	+
		Rebelliousness	+	+	+	+	+
		Friends Who Engage in the Problem Behavior	+	+	+	+	+
		Favorable Attitudes Toward the Problem Behavior	+	+	+	+	+
		Early Initiation of the Problem Behavior	+	+	+	+	+
		Constitutional Factors	+	+	+	+	+
		Substance Abuse					
		Delinquency					
		Teen Pregnancy					
		School Drop-Out					
		Violence					
		Depression & Anxiety

Protective Factors

Individual Characteristics

- High Intelligence
- Resilient Temperament
- Competencies and Skills (Cognitive, Social and Emotional)

In each social domain (family, school, peer group and neighborhood)

- Prosocial Opportunities
- Reinforcement for Prosocial Involvement
- Bonding (Attachment and Commitment)
- Healthy Beliefs and Clear Standards

Intervention Components

- **Component One:**
Teacher Training in Classroom Management and Instruction
- **Component Two:**
Parent Training in Behavior Management and Academic Support
- **Component Three:**
Child Social, Cognitive and Emotional Skill Development

S
D
R
G

SSDP Intervention Component: Teacher In-Service

Proactive classroom management (grades 1-6)

- Establish consistent classroom expectations and routines at the beginning of the year
- Give clear, explicit instructions for behavior
- Recognize and reward desirable student behavior and efforts to comply
- Use methods that keep minor classroom disruptions from interrupting instruction

Effective Direct Instruction (grades 1-6)

- Assess and activate foundation knowledge before teaching
- Teach to explicit learning objectives
- Model skills to be learned
- Frequently monitor student comprehension as material is presented
- Re-teach material when necessary

Cooperative learning (grades 1-6)

- Involve small teams of students of different ability levels and backgrounds as learning partners
- Provide recognition to teams for academic improvement of individual members over past performance

Bonding and Connecting Video

Parent Programs

Raising Healthy Children (grades 1-2)

- Observe and pinpoint desirable and undesirable child behaviors
- Teach expectations for behaviors
- Provide consistent positive reinforcement for desired behavior
- Provide consistent and moderate consequences for undesired behaviors

Supporting School Success (grades 2-3)

- Initiate conversation with teachers about children's learning
- Help children develop reading and math skills
- Create a home environment supportive of learning

Guiding Good Choices (grades 5-6)

- Establish a family policy on drug use
- Practice refusal skills with children
- Use self-control skills to reduce family conflict
- Create new opportunities in the family for children to contribute and learn

Social, Cognitive and Emotional Skills Training

- Listening
- Following directions
- Social awareness (boundaries, taking perspective of others)
- Sharing and working together
- Manners and civility (please and thank you)
- Compliments and encouragement
- Problem solving
- Emotional regulation (anger control)
- Refusal skills

Seattle Social Development Project Design

- Initiated in 1981 in 8 Seattle elementary schools.
- Expanded in 1985, to include 18 Seattle elementary schools to add a late intervention condition and additional control students.
- Quasi-experimental study
 - Full treatment (grades 1-6) = 149
 - Late treatment (grades 5-6) = 243
 - Control = 206
- 77% of the 5th grade students constitute the longitudinal study sample.

SSDP Intervention Effects Compared to Controls:

Among Females At age 21

SDG Seattle Social Development Project Summary of Long Term Outcomes

SDRG Cost-Benefit

An independent cost-benefit analysis by Washington State Institute for Public Policy estimated that projected benefits resulting from

the SSDP intervention effects observed through age 21 would produce a net positive return per participant.

S D
R G

Seattle Social Development Project Conclusion

Full intervention in grades 1-6 was more effective than late intervention (grades 5-6).

S D
R G

Conclusions from SSDP test of Raising Healthy Children

- In the elementary years, parents and teachers can make a demonstrable difference that lasts into adulthood using the Raising Healthy Children program.
- Increasing opportunities, skills and recognition for children in the elementary grades can put more children on a positive developmental path.

Raising Healthy Children Training System

S

D

R

G

Staff Development

Year One

Summer

- Implementation Team Training

Fall

- Workshop Leader Trainings for RHC, SSS, & GGC
- Proactive Management

Winter

- Social & Emotional Skills Workshop

Spring

- Teacher coaching and support

S

D

R

G

Staff Development

Year Two

Summer

- Implementation team training

Fall

- Instructional Strategies—Direct Instruction
- Teacher coaching and support

Winter

- Instructional Strategies—Cooperative Learning
- Instructional Strategies—Motivation
- Teacher coaching and support

Spring

- Teacher coaching and support

S

D

R

G

Staff Development

Year Three

Summer

- Implementation team training and capacity building

Fall

- New teacher training

Winter

- Refresher training
- Teacher coaching and support

Spring

- Teacher coaching and support

Support Structures

- **School Staff**
 - Implementation team training
 - 7 days of teacher training
 - Coaching
 - Principal support
- **Family**
 - Training in each parenting curriculum
