Blueprints For Violence Prevention Conference
April 13, 2012

Objectives:

1. Demonstrate the utilization of youth survey data for prevention planning.
 - Pennsylvania Youth Survey (Monitoring The Future Survey)
2. Briefly review the blending of two prevention models.
 - Communities That Care (CTC)- Data focused, outcomes driven.
 - 40 Developmental Assets- Enhancement of protective factors.
3. Empowering students to be part of the prevention planning process.
 - Social Development Strategy
 - Youth Asset Councils
 - Environmental Change (Positive School Climate)

POP QUIZ !!

QUIZ

1. What percent of students will go to their teacher with a problem?
2. What percent of students think it is ok to cheat on a test?
3. What percent of students can go to a neighbor for help?
4. What is the highest scoring protective factor for youth?
5. What percent of students can go to their parent with a problem?

(5,400 students in grades 6,8,10,12 in Erie County, Pennsylvania)

QUIZ

1. What percent of students will go to their teacher with a problem? **81%**
2. What percent of students think it is ok to cheat on a test? **14%**
3. What percent of students can go to a neighbor for help? **21%**
4. What is the highest scoring protective factor for youth?

Belief in the Moral Order

5. What percent of students can go to their parent with a problem? **24%**

(5,400 students in grades 6,8,10,12 in Erie County, Pennsylvania)

A WORD ABOUT POVERTY...

Poverty (*extreme economic deprivation*) is a risk factor that is related to the following adolescent problem behaviors:

- Teen Pregnancy
- School Drop Out
- Violence
- ATOD Abuse
- Delinquency

TWO PREVENTION MODELS:

1. Communities That Care (CTC)

- PCCD/DOE/HHS
- Risk-focused
- Data driven

2. 40 Developmental Assets

- SEARCH Institute
- Protective factors
- Universal
- Strengths-based

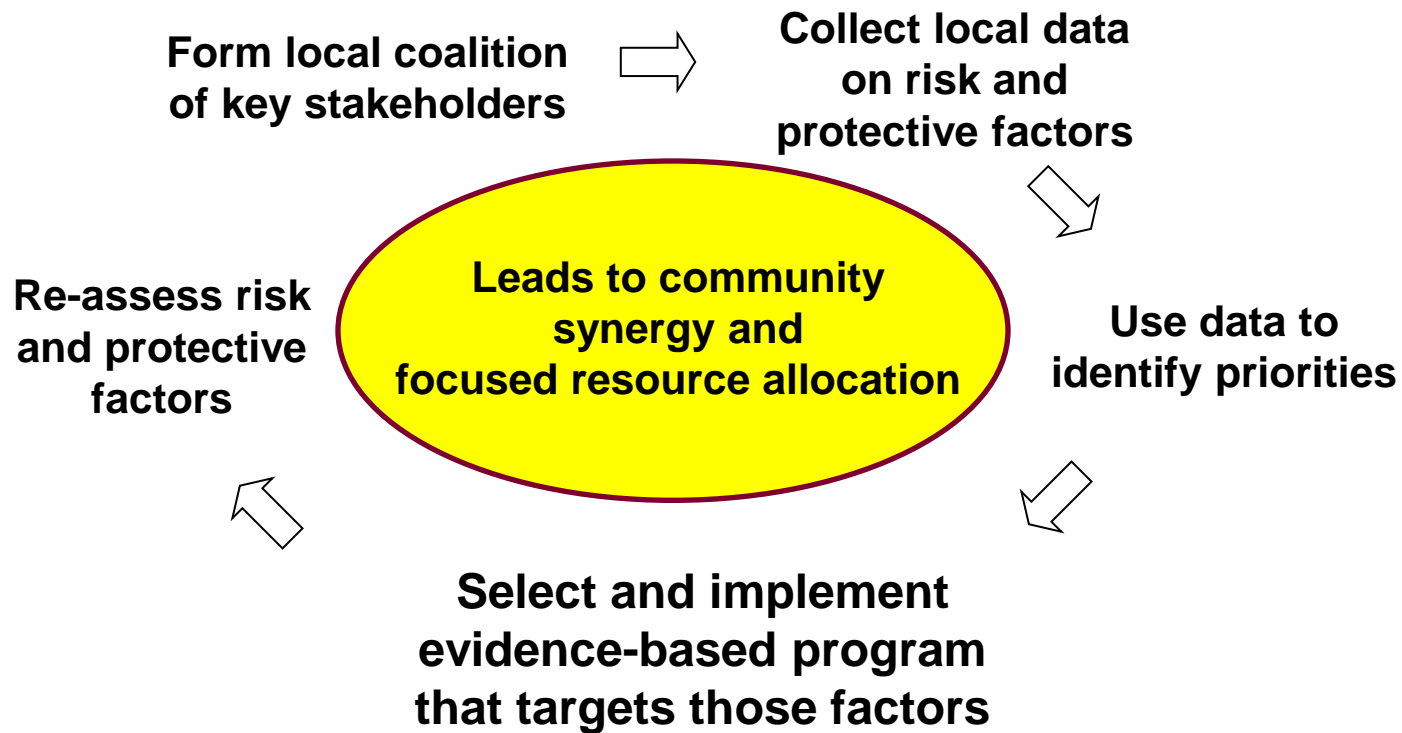

WHAT IS COMMUNITIES THAT CARE?

- An operating system; not a program (computer system)
- Proactive approach
- Research-based (30 years of data)
- Outcome-focused (Measurable Objectives)
- Inclusive of all community stakeholders

The CTC Model

SIX ADOLESCENT PROBLEM BEHAVIORS

1. Substance Abuse
2. Delinquency
3. Teen Pregnancy
4. School Drop Out
5. Violence
6. Depression & Anxiety

CTC: PUBLIC HEALTH MODEL

What are the risk factors associated with heart disease?

- **Smoking**
- **High Blood Pressure**
- **High Cholesterol**
- **Obesity**

WHAT DATA CAN BE USED FOR A COMMUNITY ASSESSMENT?

- Pennsylvania Youth Survey
 - Same as National Monitoring the Future Survey
- Archival data- Erie County
- Agency reports
- Web-based data:
 - Juvenile Court Judges Commission
 - Center for Juvenile Justice
 - Erie County Department of Health

WHAT IS THE PAYS?

(PENNSYLVANIA YOUTH SURVEY)

- Valid & reliable survey instrument.
- Local, county, state and national comparisons.
- Grades 6, 8, 10 & 12.
- Addresses risk and protective factors that are related to positive youth outcomes.

RISK & PROTECTIVE FACTORS

WHAT IS A RISK FACTOR?

- Those conditions that increase the likelihood that a child will develop problem behaviors later in life (*violence, school drop-out, teen pregnancy, ATOD use, delinquency*).

HOW DO WE MEASURE IT?

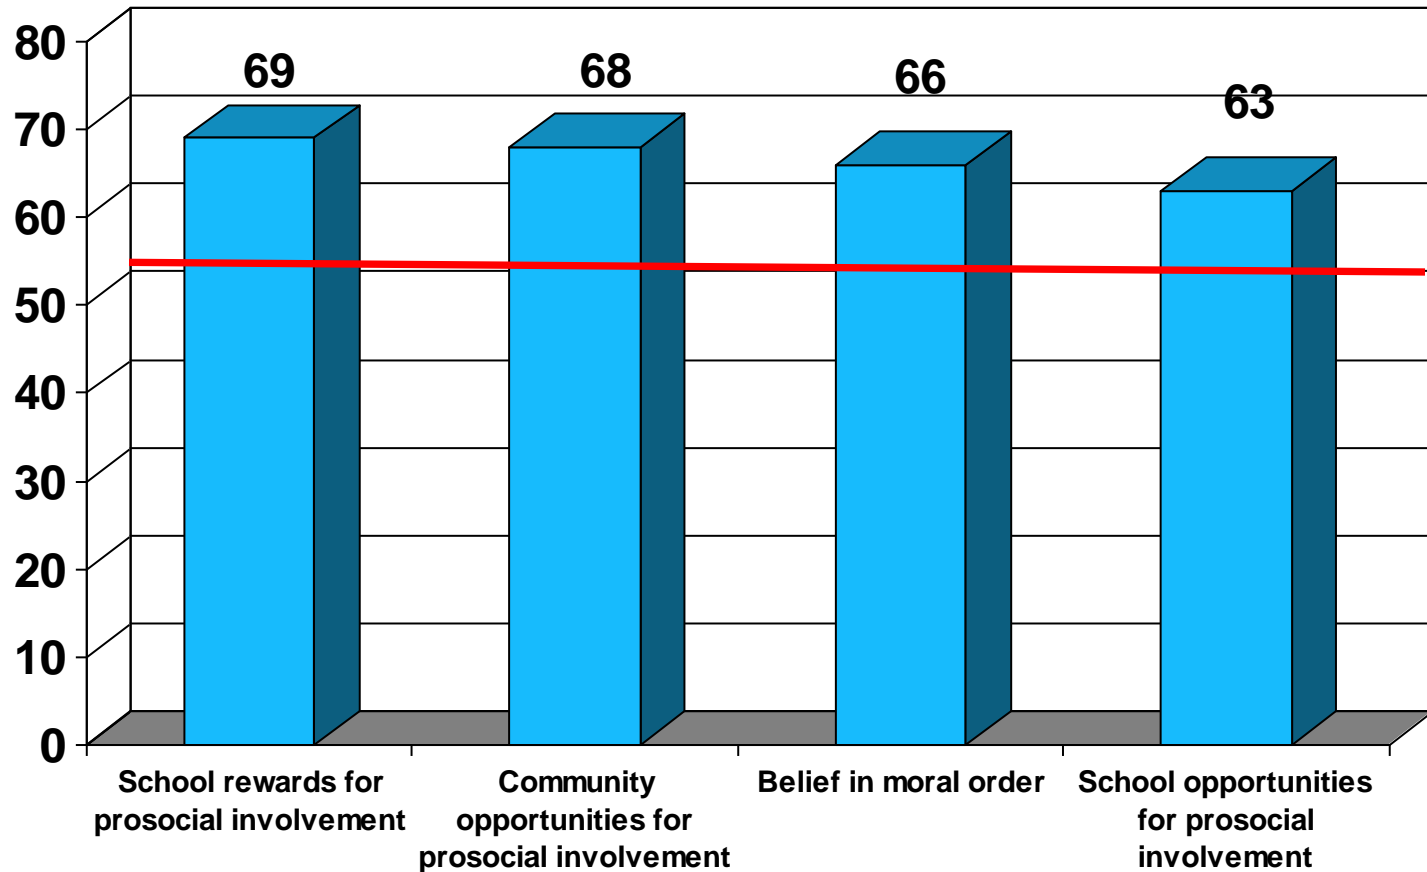

WHAT IS A PROTECTIVE FACTOR?

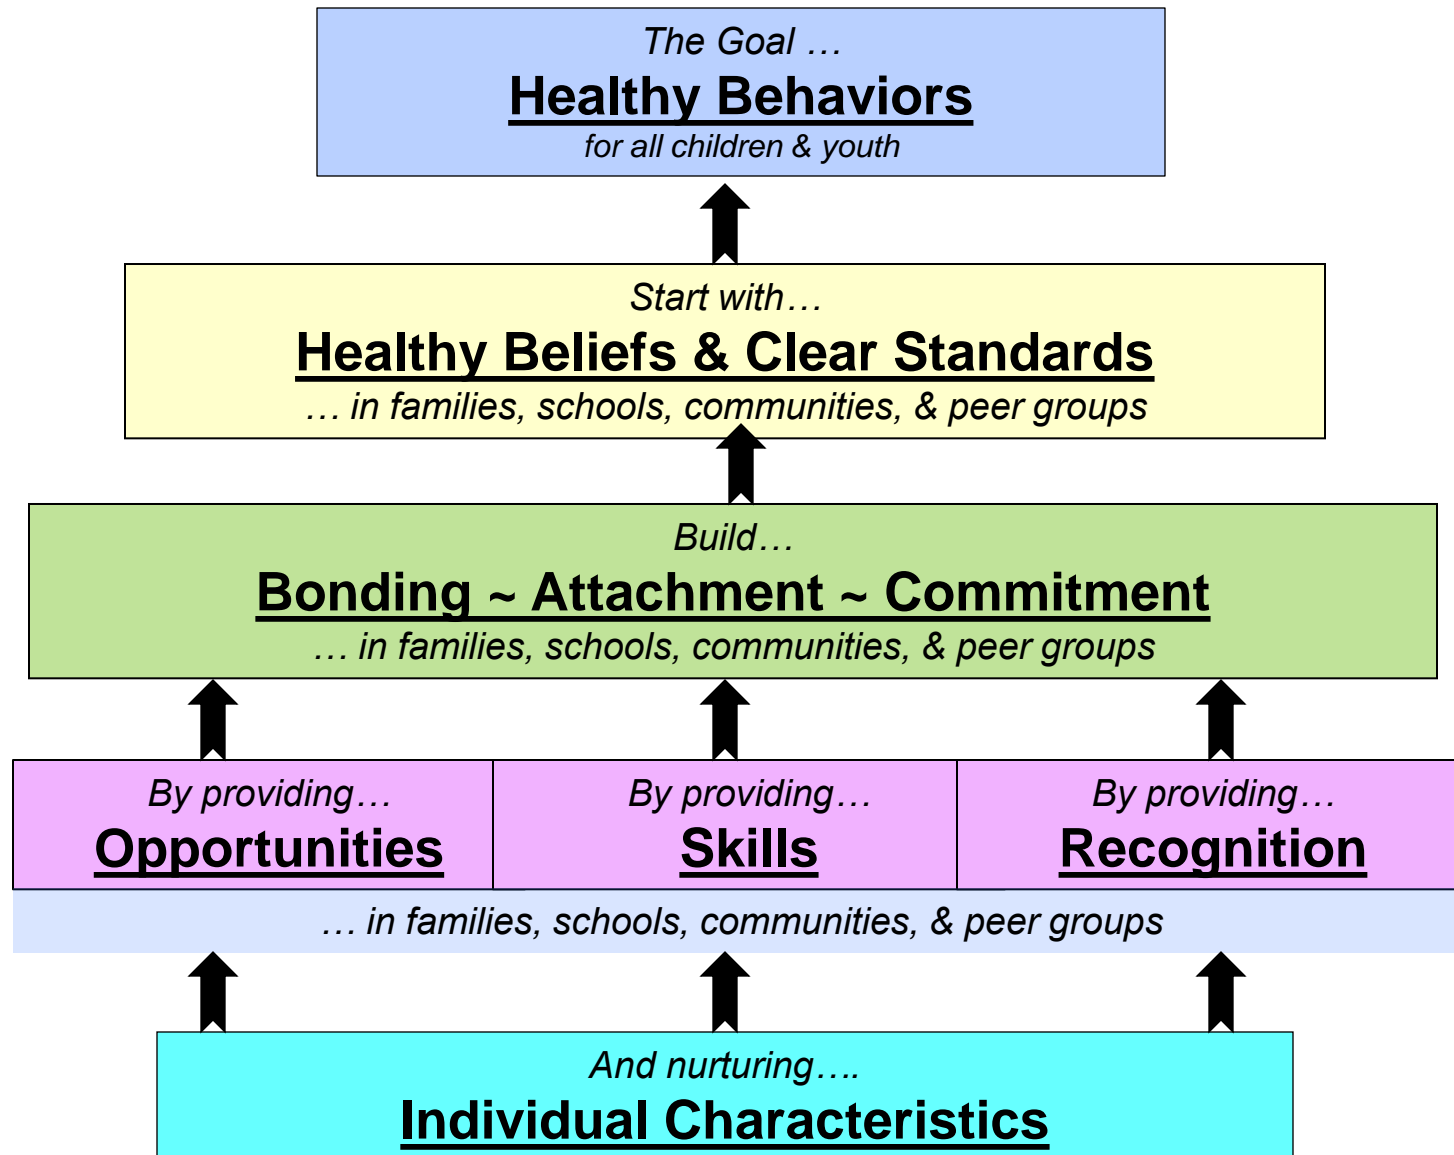

- Those people or conditions that buffer youth from risk or how they respond to risk (*coaches, parents, teachers, youth pastors, etc.*).
- Otherwise known as “Assets”

HOW DO WE MEASURE IT?

The Social Development Strategy

SOCIAL DEVELOPMENT STRATEGY

- Opportunities (*meaningful*)
- Skills (*Useable*)
- Recognition (*High expectations/Rewards*)

MEANINGFUL OPPORTUNITIES

- Community services
- Music, art, drama,
- Prosocial skills
- Time at home
- Useful roles
- Parental involvement
- Other adult relationships
- Reading for pleasure
- Homework

SKILLS

- Personal control
- Family boundaries
- Conflict resolution
- Good decision making
- Resistance skills
- Interpersonal skills

RECOGNITION

- Community values youth
- Youths given useful roles
- Caring school climate
- High expectations
- Rewards

Research-Based Prevention Programs

Blueprints for Violence Prevention Overview

In 1996, the Center for the Study and Prevention of Violence (CSPV), at the University of Colorado at Boulder, with funding from the Colorado Division of Criminal Justice, Centers for Disease Control and Prevention, and the Pennsylvania Commission on Crime and Delinquency, designed and launched a national violence prevention initiative to identify violence prevention programs that are effective. The project, called Blueprints for Violence Prevention, has identified 11 prevention and intervention programs that meet a strict scientific standard of program effectiveness. Program effectiveness is based upon an initial review by CSPV and a final review and recommendation from a distinguished [Advisory Board](#), comprised of seven experts in the field of violence prevention. The 11 model programs, called Blueprints, have been effective in reducing adolescent violent crime, aggression, delinquency, and substance abuse. Another 21 programs have been identified as promising programs. To date, more than 600 programs have been reviewed, and the Center continues to look for programs which meet the selection [criteria](#).

Soon after the initiation of Blueprints, the [Office of Juvenile Justice and Delinquency Prevention \(OJJDP\)](#) became an active supporter of the project and provided funding to CSPV to sponsor program replications in sites across the United States. As a result, Blueprints has evolved into a large-scale prevention initiative, both identifying model programs and providing [training and technical assistance](#) to help sites choose and implement a set of demonstrated effective programs with a high degree of integrity.

While the designers of each program provide training and consultation to sites, CSPV monitors the quality of replication by conducting a detailed and comprehensive process evaluation at each site. Little is

CONCLUSION- *THE CTC OPERATING SYSTEM PROVIDES THE TOOLS A COMMUNITY NEEDS TO:*

- Get to the root cause of the problem behaviors in a community by collecting data and prioritizing risk and protective factors.
- Implement research based approaches that reduce the risks that lead to problem behaviors.
- Increases the protective factors that buffer children from exposure to risk.

Search Institute is an independent nonprofit organization whose mission is to provide leadership, knowledge, and resources to promote healthy children, youth, and communities. To accomplish this mission, the institute generates and communicates new knowledge, and brings together community, state, and national leaders.

At the heart of the institute's work is the framework of [40 Developmental Assets](#), which are positive experiences and personal qualities that young people need to grow up healthy, caring, and responsible.

Strong Vincent High School 2009 Strategic Student Plan

Handout

Priority Areas:

1. **Violence** (19% of students attacked someone with the intent to harm; 29% of students have been threatened)
2. **Sadness & Depression** (50% of students are sad or depressed most days; 56% of 8th grade students)
3. **Antisocial Behavior** (30% of students admit to being suspended; Erie County rate is 13%)
4. **Teen Sexual Activity**
5. **Positive School Climate** (emphasis on staff and administration)

Recommendations for corrective action by students:

Education & Support	Activities & Outreach	Parents & Community
<ul style="list-style-type: none"> • Buddy System • Mentoring Program • Reality Check (What is real) • Increase support from school staff • Plan and schedule community forum- April 2010 (Violence & Depression) • “Stairways to Happiness” (Depression awareness campaign with Erie Stairways) • Increase the number of after school activities and clubs 	<ul style="list-style-type: none"> • Inspirational speakers/Pep rallies • Positive banners in school hallways • Plan and schedule a forum on teen pregnancy issues • Plan and implement a Social Norms campaign. • Increase after school activities & clubs • Activity Week/ Spirit Day • Make a Difference (Blue Ribbon) Week • Bridge Builders to Middle School <ul style="list-style-type: none"> ○ Tours of SV High School ○ Mentoring • School “lock ins” promoting positive values • Team Building Camps 	<ul style="list-style-type: none"> • Increase parental support • Teen sexuality training/workshop • Increase community service opportunities • Depression awareness campaign focusing on parents • “Stairways to Happiness” campaign with Erie Stairways

KEY POINTS...

- Youth survey data that is valid and reliable can be the major component of a community assessment in the community planning process.
- Communities That Care (CTC) and the 40 Assets can work very well together and compliment each other.
- Our youth are ready to give back to their community and must be seen as part of the answer to problems in our communities, not part of the problem.
- While many evidence-based programs deal with a targeted audience of students, Youth Asset Councils can develop a plan for the entire school population (Positive School Climate/Social Development Strategy).
