Mission of Invest in Kids

Improving the health and well-being of vulnerable young children and families throughout Colorado.

Working in partnership with local communities, we identify, introduce, implement, and ensure the success of research-based, proven programs.

The Nurse-Family Partnership®

An evidence-based community health program with 3 decades of research proving it works. Families are empowered to change their lives for the better focusing on improving pregnancy outcomes, improving child health and development and improving economic self-sufficiency.

The Incredible Years[®]

Proven early childhood emotional and social health programs designed to increase children's success at school and at home by promoting positive parent, teacher, and child relationships.

The 3 components IIK supports are: Teacher Classroom Management, Dinosaur School, and Parenting Program.

The Incredible Years® Staff

The Incredible Years® Overview

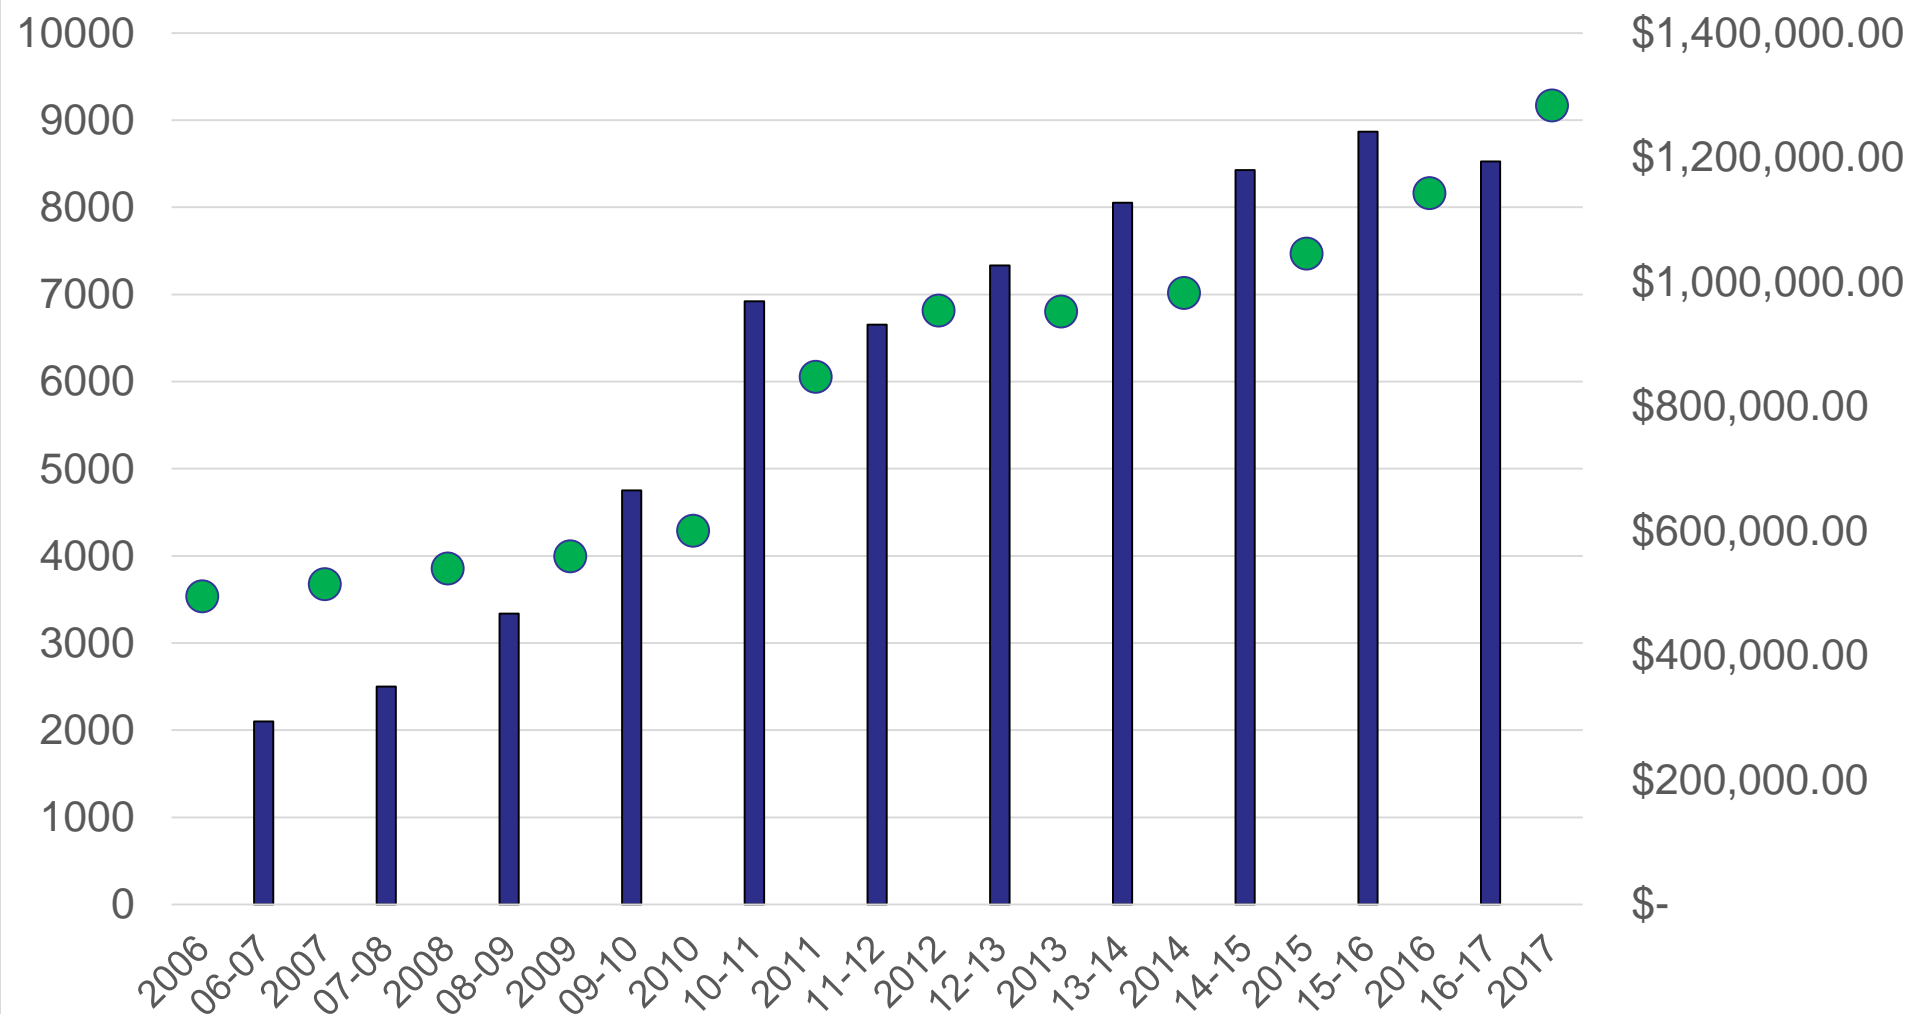

Dinosaur School: 60 sessions led by early childhood teachers with focus on how to solve problems, control one's anger, self-monitor one's emotions, succeed in school, and make friends

Teacher Classroom Management: Teachers learn positive teaching strategies, effective classroom setup, and how to support children with challenging behaviors

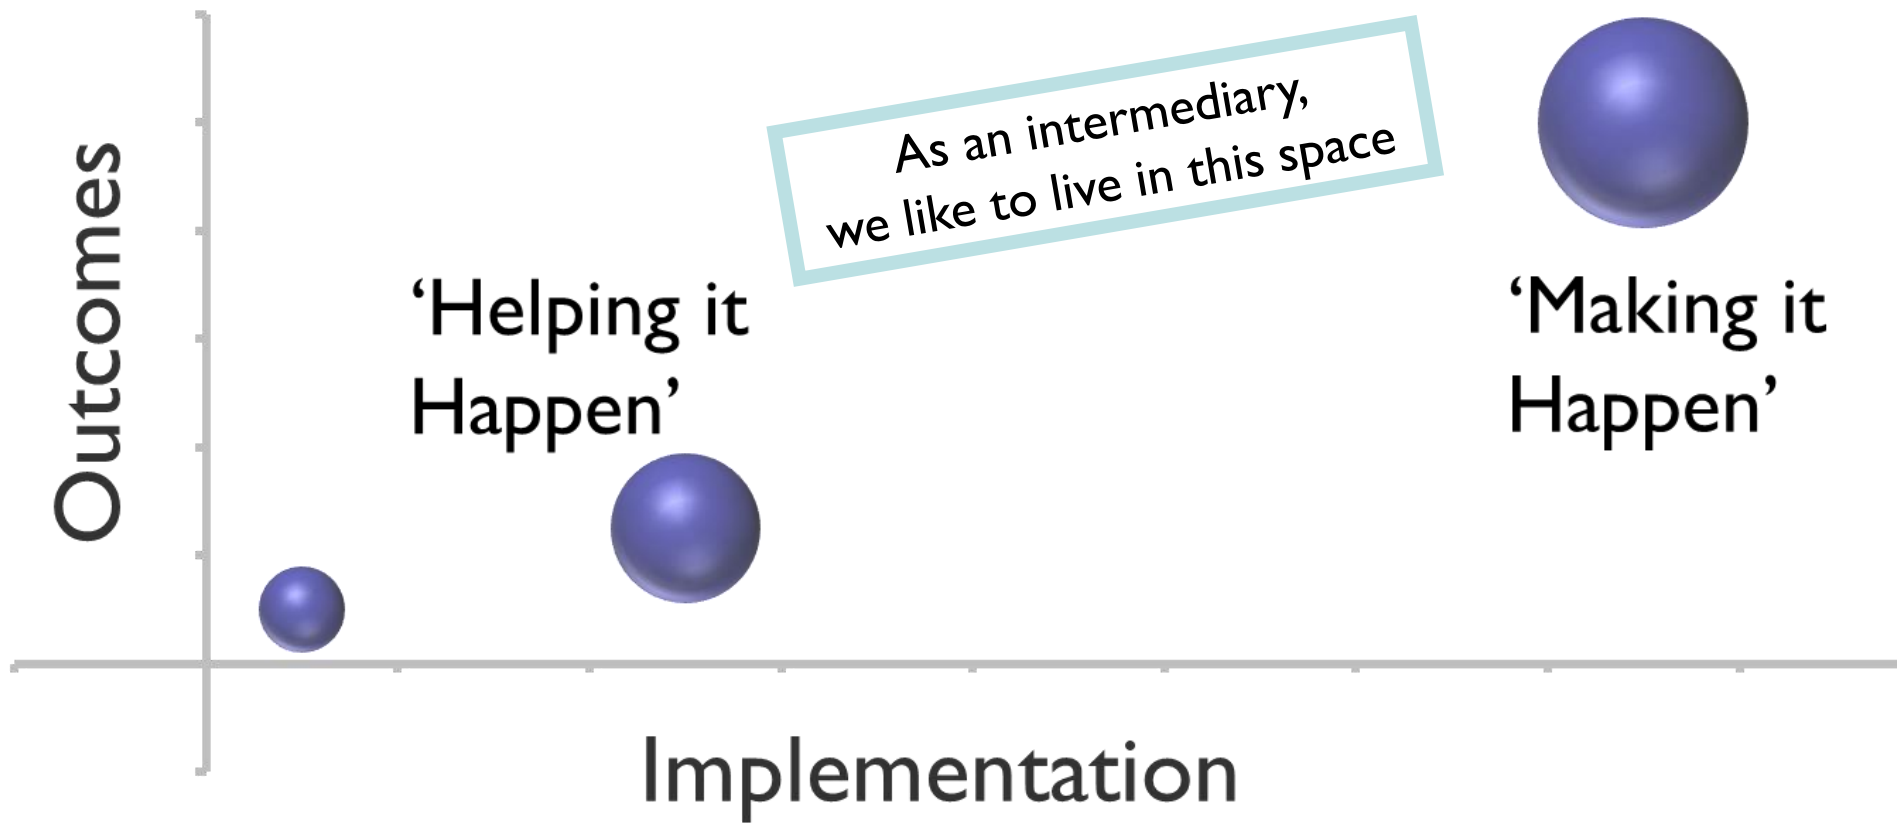

Parenting Program: 14 weekly sessions to help parents learn strategies for increasing positive parenting (i.e.: setting effective limits) and decrease negative parenting practices (i.e.: physical punishment)

Why Does Implementation Matter?

Science to Service Gap

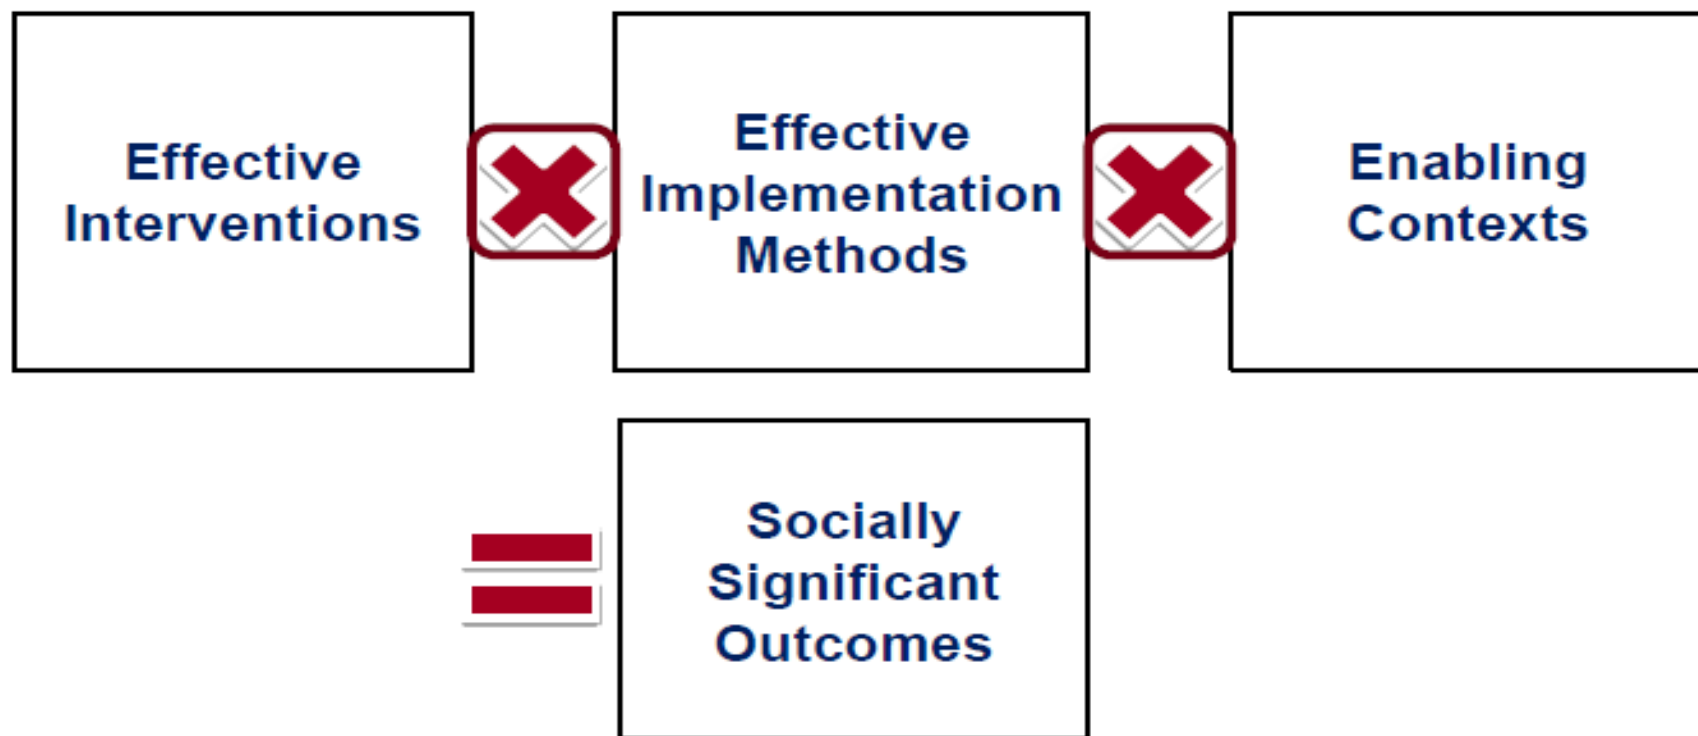

- What is known to work is not what is adopted.

Implementation Gap

- What is adopted is not used with fidelity.
- What is used with fidelity is not sustained.
- What is used with fidelity is not at a scale or scope to make a critical difference.
